——, PFFlTi, 470
——, R 15 of *Aplysia*, 359
——, Retzius of leech, 309
——, SETi of locust, 235

Lactic dehydrogenase, 119
Learning, 67, 127, 221–235, 301
Limulus, 79, 206
Lumbricus, 249
Lymnea, 67–71, 161–166

Manduca, 283
Monensin (sodium ionophore), 141

Neuromuscular junction, 157
Neutral red—as neuronal vital stain, 81
Node of Ranvier, 100

Octopamine, 207, 283, 315, 452, 455–479, 481–505
Opiates, 73
Orchestration hypothesis, 504
Oviducal nerve (of locust), 443

Pagothenia (arctic fish), 295
Panulirus, 264
Periplaneta, 531
Photoreceptors (of leech), 411
Potassium conductance, 192
Potentiation, 467
Proctolin, 173, 207, 441, 452, 467
Proteins, characteristic, in neurons, 1–10

Receptors (cholinergic), 432
Reflex, tail flattening of earthworm, 249–261

Saponin, 239
Schistocerca, 127, 222, 455–505
Sensitization, 467–474
Serotonin (5 H-T), 13–24, 196–205, 309, 316, 429, 467
Sibling neurite bias, 517

Toxin, β-Bungarotoxin, 157
—, α-Latrotoxin, 157

Venom (of black widow spider), 157

Journal of Neurobiology

Contents

Volume 15, 1984

Issue 1, January 1984

Are Different Proteins Synthesized in Distinct Domains in a Neuron?
Bruce Tedeschi and David L. Wilson 1

Enhancement of Inward Current by Serotonin in Neurons of *Aplysia*
Terry C. Pellmar 13

Dopamine in a Molluscan Nervous System: Synthesis and Fluorescence Histochemistry
Dorothea L. Trimble, David L. Barker, and Brad J. Bullard 27

Activation by Dopamine of Patterned Motor Output from the Buccal Ganglia of *Helisoma trivolvis*
Dorothea L. Trimble and David L. Barker 37

Axonal Transport of [^{3}H] GABA and [^{3}H] Glutamate in Excitatory and Inhibitory Neurons Innervating Lobster Exoskelatal Musculature
William R. Woodward 49

Brief Communications

One-Trial Reward Learning in the Snail *Lymnea stagnalis*
James Alexander Jr., Teresa E. Audesirk, and Gerald J. Audesirk 67

Book Review

D. C. S. Roberts, *Review of* Neurobiology of Opiate Reward Processes, *J. E. Smith and J. D. Lane, Eds.* 73

Announcements 75

Information for Contributors 77

Issue 2, March 1984

Subcellular Localization of Neutral Red Staining in *Limulus* Ventral Photoreceptors
Steven C. Chamberlain, Barbara-A. Batelle, and Bruce G. Calman 79

Localization of Calcium in Nerve Fibers
S. Y. Chan, S. Ochs, and R. A. Jersild Jr. 89

Fast Axonal Transport in Central Nervous System and Peripheral Nervous System Axons Following Axotomy
J. D. Redshaw and M. A. Bisby 109

Axonal Transport Blockade and Denervation Have Qualitatively Different Effects Upon Skeletal Muscle Metabolism
Beatriz U. Ramirez 119

Leg Position Learning by an Insect. I. A Heat Avoidance Learning Paradigm
Robin R. Forman 127

Subcellular Sites of Processing of Precursors to Neurosecretory Peptides in the Bag Cells of *Aplysia*: Inferences from the Effects of Monensin, FCCP, and Chloroquine
Michael E. Yates and Robert W. Berry 141

Brief Communications

β-Bungarotoxin Antagonizes the Effect of α-Latrotoxin from Black Widow Spider Venom on the Neuromuscular Junction
Mu-Chin Tzeng and Shin Shay Tian 157

An Identified Neuron Modulating the Activity of the Ovulation Hormone-Producing Caudo-Dorsal Cells of the Pond Snail *Lymnaea stagnalis*
R. F. Jansen and N. P. A. Bos 161

Book Review

Review of Axoplasmic Transport and Its Relation to Other Nerve Functions, by Sidney Ochs
Richard Hammerschlag 169

Announcements 171

Issue 3, May 1984

Dual Effects of Proctolin on the Rhythmic Burst Activity of the Cardiac Ganglion
Robert E. Sullivan and Mark W. Miller 173

Extracellular Calcium Dependence of Contracture and Modulation by Serotonin in Buccal Muscle E1 of *Aplysia*
Jefferey L. Ram, Umesh A. Shukla, Rajesh Parti, and Roy L. Goines 197

Neuromuscular Modulation in *Limulus* by Both Octopamine and Proctolin
Stanley G. Rane, Peter H. Gerlach, and Gordon A. Wyse ... 207

Leg Position Learning by an Insect: II. Motor Strategies Underlying Learned Leg Extension
Robin R. Forman and Sasha N. Zill 221

Brief Communications

Particle Movement in Squid Axons Permeabilized with Saponin
Hideki Gotoh and Toshifumi Takenaka 239

Information for Contributors 247

Issue 4, July 1984

The Tail Flattening Reflex in *Lumbricus*: Reconstitution After Tail Amputation and Modifications in Segmental Nerve Roots
Heribert Gras 249

Conduction Block in a Branching Axon Innervating Two Muscles Under Physiological Conditions
O. Baranes-Shahrabany, Y. Grossman, and I. Parnas 263

Innervation Pattern and Electric Organ Discharge Waveform in *Gymnotus carapo* (*Teleostei; Gymntiformes*)
O. Trujillo-Cenóz, J. A. Echagüe, and O. Macadar 273

Octopamine and Chlordimeform Enhance Sensory Responsiveness and Production of the Flight Motor Pattern in Developing and Adult Moths

Sue C. Kinnamon, Leland W. Klaassen, Ann E. Kammer, and Dale Claassen 283

Brief Communication

Low Temperature Increases Gain in the Fish Oculomotor System
John C. Montgomery 295

Book Reviews

Review of Current Methods in Cellular Neirobiology, Vol. I, Anatomical Techniques, Jeffery L. Barker and Jeffrey F. McKelvy, Eds.
Ann H. Bunt-Milam 299

Review of Motor Control Mechanisms in Health and Disease (Advances in Neurology, Volume 39), John E. Desmedt, Ed.
Marjorie H. Woollacott 300

Review of Memory, learning, and higher function. A cellular view, D. D. Woody
Graham Hoyle 301

Books Received 303

Announcement 304

Information for Contributors 307

Issue 5, September 1984

Quantitative Effects of a Neurotoxin Upon Serotonin Levels Within Tissue Compartments of the Medicinal Leech
Charles M. Lent 309

Cholinergic Receptors in the *Aplysia* Gill
Sam Weiss, Jeff I. Goldberg, Jon P. Edstrom, and Ken Lukowiak 325

The Nature of the Chick's Magnesium-Sensitive Retinal Spreading Depression
A. Van Harreveld 333

Endogenous Burst Capability in a Neuron of the Gastric Mill Pattern Generator of the Spiny Lobster *Panulirus interruptus*
Daniel K. Hartline and David F. Russell 345

Proprioceptor Distribution and Control of a Muscle Reflex in the Tibia of Spider Legs
Ernst-August Seyfarth and Hans-Joachim Pflüger 365

Depression of Fast Axonal Transport Produced by Tullidora
E. J. Muñoz-Martínez, D. Massieu, and S. Ochs 375

Information for Contributors 393

Issue 6, November 1984

Transfer of Habituation in *Aplysia*: Contribution of Heterosynaptic Pathways in Habituation of the Gill-Withdrawal Reflex
Jeff I. Goldberg and Ken Lukowiak 395

Photoreceptors and Visual Interneurons in the Medicinal Leech
Eric L. Peterson 411

Sensitivity of *Aplysia* Neurons in Primary Culture to Putative Neurotransmitters
Rolf Bodmer and Irwin B. Levitan 429

Dorsal Unpaired Median Neurons, and Ventral Bilaterally Paired Neurons, Project to a Visceral Muscle in an Insect
Angela B. Lange and Ian Orchard 441

Central Nervous Sensitization and Dishabituation of Reflex Action in an Insect by Neuromodulator Octopamine
Sompong Sombati and Graham Hoyle 455

Generation of Specific Behaviors in a Locust by Local Release into Neuropil of the Natural Neuromodulator Octopamine
Sompong Sombati and Graham Hoyle 481

Glutamatergic Central Nervous Transmission in Locusts
Sompong Sombati and Graham Hoyle 507

Review Article

The Possible Role of "Sibling Neurite Bias" in the Coordination of Vertebrate Neurite Extension, Branching, and Survival
Neil M. Smalheiser and Stanley M. Crain 517

Brief Communications

Dorsal Unpaired Median Neurons of the Cockroach Metathoracic Ganglion
Kentaro Arikawa, Hiroshi Washio, and Yoshitaka Tanaka 531
